

# **James Craig Predicted Log Regatta**

Long Beach to San Diego via Oceanside July 8-9, 2016

Hosted by the

### LONG BEACH YACHT CLUB

The James Craig Trophy was originally known as the James Bennett Trophy. The first contest was in 1907 from New York to Bermuda. The Deed specified that after a skipper won it three times, it was to be kept by the winner. The first and second contests were won by James Craig who elected not to compete for it again and the contest was dropped in 1909. Craig retained the trophy until 1921 when he presented it to the National Association of Engine & Boat Manufacturers for their sponsorship and the name of it was changed to James Craig Trophy. They also made changes in the Deed of Gift, but kept the requirement that the course be at least 150 ocean miles in length. The original silver trophy was stolen in 1925 and NAEBM replaced it with one of gold. From 1927 until 1940 there were no contests, but in 1941 it was placed in competition for the Newport to Coronado event conducted by SCCA and LBYC. In recent years the 2-leg course has traveled from Long Beach to Ensenada via San Diego. In 2014 and this year it runs from Long Beach to San Diego via Oceanside.

The Overall Craig regatta consists of two major legs. Previously, the first leg ran to San Diego on on Saturday, we laid over at SDYC on Sunday, then the second leg ran on to Ensenada on Monday. However, due to changing times, in recent years it has stayed within the United States. In 2014 the Craig Regatta was changed to provide a stop at the Oceanside Yacht Club. This breaks the long run from Long Beach to San Diego into two shorter and therefore more enjoyable legs. The Donaldson first leg, sponsored by LBYC, runs from Long Beach to Oceanside. The second leg, sponsored by SCCA, is the Corredores de Baja (translates: Racers of Baja) and runs from Oceanside to San Diego. Points and trophies for both the Donaldson and Corredores legs are determined in the regular manner. Three sets of trophies are awarded. One set for each day's leg, plus a set for the overall regatta. Total error for the overall Craig Regatta is determined by combining and averaging the weighted errors from each contest.

# Corredores de Baja HISTORY

Created in 1979, the Corredores de Baja contest ran from San Diego to Ensenada in association with the James Craig Cruiser Navigation Contest Before that, the SDYC "International" contest had run from San Diego to Ensenada in August in conjunction with the LBYC Hall Scott contest that ran from Long Beach to San Diego. By 1979 SDYC had dropped the International due to issues with the Mexican authorities and, the Hall Scott was dropped because of the 1977 oil shortage leaving the Craig as the only Long Beach - San Diego contest. Because the Craig provided for a one-week layover in San Diego before the return portion was run from San Diego to Long Beach, some of those who had previously participated in the International conceived the idea of the Corredores as a side trip contest during the layover. Then in 1982 the Corredores was substituted for the return Craig leg. The new Craig-Corredores leg was run from San Diego to Ensenada on Monday and that evening the awards dinner was held at a restaurant ashore where the trophies were presented for both the Corredores and the Craig Overall. In 1986, to avoid the perpetually cold and overcast, sometimes stormy May-June weather, the date for the Craig was moved from Memorial Day weekend to the first weekend following July Fourth.

Although not an official activity of the Craig-Corredores contest, an adjunct to the Corredores involved participation by most skippers in the whimsical Todos Santos Yacht Club. Originally held at Todos Santos Island off of Ensenada, the TSYC Opening Day was later held on the Ensenada dock. Opening day was typically filled with various enjoyable activities for all. The Corredores became a very popular element of the Craig Regatta.

Unfortunately a number of things have led us to stop traveling on down to Ensenada. These include the rapidly escalating price of fuel, the need for Mexican insurance and fishing licenses, Mexican Port Captain fees, new US customs clearance requirements, and other complications relating to clearing into Mexico and back into the U.S.

This year's Craig will break the 90 mile San Diego leg of the Craig into two segments with a stop in Oceanside. With most boats running slower these days to conserve fuel, this will keep the legs under fifty miles each allowing more reasonable start times. The leg to Oceanside on Friday will be the Donaldson and the San Diego leg will be the Corredores. Likely the Todos Santos Yacht Club opening day activities will be held at the SDYC docks on Monday again this year.
